

CME Decon Trailer

The CME Decon Trailer is a self-contained drilling tool decontamination unit that can be towed behind your drill rig or service truck. It features a heated pressure washer and 4-foot by 6-½ foot decontamination area that has a catch basin to collect residue cleaned from augers or drilling tools.

A 276 gallon water tank is mounted over the axles for maximum stability. Miscellaneous tools and supplies can be transported in the storage area in front of the pressure washer. A storage rack is also provided that holds three 5 gallon buckets.

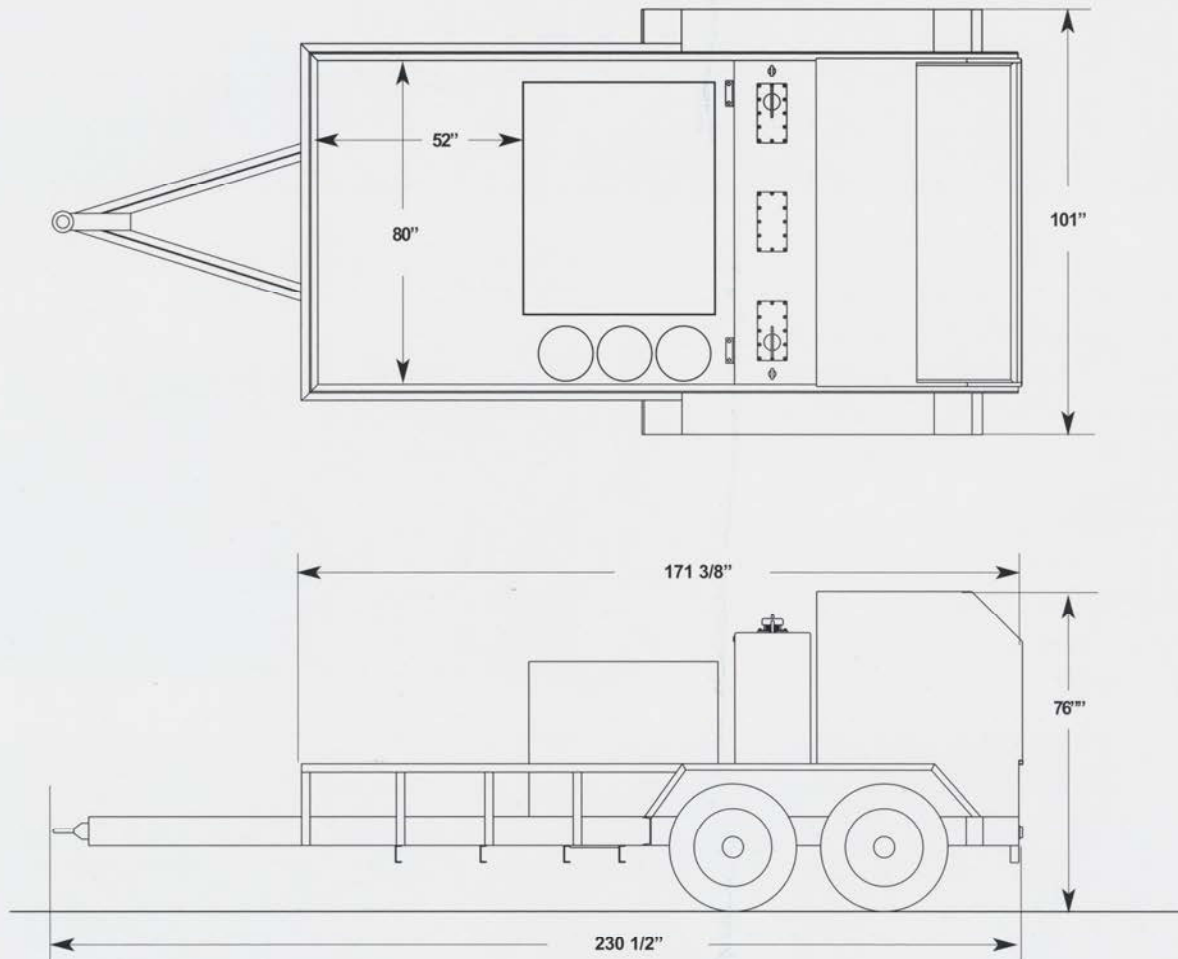

CME Decon Trailer
