

## CME PORTABLE JACK PAD

The CME Portable Jack Pads are engineered to bend but not break and are backed with a lifetime warranty. The thermoplastic material is lightweight and has a strength capacity of 100,000 lbs., bending capacity of 45,000 lbs. and a crush rating of 200 psi. The pads have a safety orange handle that, unlike rope handles, is unbreakable, comfortable, and completely waterproof in addition to being UV, hydraulic fluid and road chemical resistant.

***You will never make plywood pads again!***

Safety textured, no splinters, no warping, no delamination. Recovery memory after bending. Drop them, drag them, submerge them in water, use them in freezing temperatures or searing heat.

CME part #220400 -18" square x 1" thick  
CME part #220377-24" square x 1" thick

*Other sizes available upon request.*
